## Planning Act 2008

### Application by Port of Tilbury London Limited for an Order Granting Development Consent for a Proposed Port Terminal at the Former Tilbury Power Station (Tilbury)

### Final Submission: Draft DCO Schedule 10, Part 5 – Protective Provisions for Thurrock Council (Drainage)

Dear Robert,

Thurrock Council's deadline 7 response referred to the ongoing discussions with the Applicant regarding protective provisions for drainage. Council held a further conference call with the Applicant on Monday 20<sup>th</sup> August.

#### Schedule 10, Part 5:

The Council provided suggested track changes and comments to the Applicant on 14<sup>th</sup> August. The Council's amendments sought to add clarity to the drafting and also addressed the following matters:

- definition of '*drainage work*' and '*specified work*' (paragraph no. 50); and
- references to '*the person liable for maintenance of the drainage works*' (paragraph no. 54(2) and (3)).

SHORTLIST

An updated version of Schedule 10, Part 5 was circulated by the Applicant earlier this evening which reflects some of the Council's comments and the Council has since provided further comment to the Applicant. It should be noted that these provisions are now referred to as for the protection of Thurrock Council "as local flood authority" at the request of the Council.

The Council considers that the provisions are now substantially agreed with the Applicant, although some minor differences over largely drafting issues remain. The Council can provide a copy of its suggested track changes to Part 5 if required.

I trust that these comments are of assistance.

Yours sincerely,

**Matthew Gallagher**  
**Principal Planner (Major Applications)**
