Date: 06 January 2022

Dear Sir/Madam

Able Marine Energy Park - Material Change 2 (amendment to construction sequence) – Deadline 2 submission
Able Marine Energy Park, Killingholme Marshes, North Lincolnshire

Thank you for the Notification of Procedural Decisions on 20 December 2021 regarding the above project, in which the Examining Body highlighted that information in relation to a proposed change to the construction sequence was now available for review.

We have reviewed the letter from BDB Pitmans, which outlines this proposed change, together with the relevant plans, and I can advise that the Environment Agency currently has no comments to make on these. However, we reserve the right to make further comments on this following receipt of the HR Wallingford assessment, which we understand has been commissioned to determine whether the proposed changes will result in any significant environmental effects that are new or different from those assessed previously.

Should you require any additional information, or wish to discuss these matters further, please do not hesitate to contact me on the number below.

Yours faithfully

Annette Hewitson
Principal Planning Adviser
