

## Application for Development Consent for Nationally Significant Infrastructure Projects under the Planning Act 2008

\* required information

### Application Form

Please read guidance documents relating to the submission of applications prior to completing this form including [government guidance](#) and the Planning Inspectorate's [Advice Note Six: Preparation and submission of application documents](#).

\* Do you have a reference number?

Yes  No

\* Reference number

#### 1. Applicant

\* Organisation

#### Address

\* Building number or name

\* Street

\* City or town

County or administrative area

\* Postcode

\* Country

\* Name of contact

\* Telephone number

Fax number

\* Email

#### 2. Agent

\* Are you an agent acting on behalf of the Applicant?

Yes  No

\* Organisation

*Continued from previous page...*

## Address

* Building number or name	<input type="text" value="The St Botolph Building"/>
* Street	<input type="text" value="138 Houndsditch"/>
* City or town	<input type="text" value="London"/>
County or administrative area	<input type="text"/>
* Postcode	<input type="text" value="EC3A 7AR"/>
* Country	<input type="text" value="United Kingdom"/>
* Name of contact	<input type="text" value="Brian Greenwood"/>
* Telephone number	<input type="text" value=""/>
Fax number	<input type="text"/>
* Email	<input type="text" value=" @clydeco.com"/>

## 3. Fee

\* State the arrangement for the application fee payment:

BACS       CHAPS       Cheque

\* Please provide payment reference details

## 4. Confirming why the Planning Inspectorate should receive the application

\* Brief statement to explain why this application is, or is to be treated as, a development for which development consent is required under the Planning Act 2008

The proposed development constitutes a Nationally Significant Infrastructure Project by virtue of Sections 14 and 24(2) of the Planning Act 2008. The project meets the criteria prescribed by these sections in that it:

1) comprises the alteration of the existing Port of Immingham (an existing 'harbour facility' within the meaning of Section 14(1)(j) of the Planning Act 2008), by the construction of additional marine and landside infrastructure.

2) is located wholly within England and in waters adjacent to England up to the seaward limit of the territorial sea (Section 24(2)(a) Planning Act 2008); and

3) the effect of the alteration is expected to be to increase by at least the relevant quantity per year, the quantity of material the embarkation or disembarkation of which the facilities are capable of handling - the relevant quantity being 250,000 units per year (Sections 24(2)(b) and 24(3)(b) Planning Act 2008).

Having met the criteria set down in the Planning Act 2008, the proposed IERRT Development must be taken forward for approval as a Nationally Significant Infrastructure Project.

## 5. Non-technical description of the Proposed Development

\* Brief non-technical description of the Proposed Development

The proposed development will comprise the construction of three new Ro-Ro berths within the Humber Estuary and associated landside works in the existing Port of Immingham.

**Continued from previous page...**

Marine works:

- An approach jetty from the shore linked to two floating pontoons appropriately secured in position;
- Two separate finger piers to provide three berths thereby enabling the vessels to berth alongside with their stern ramps resting upon two floating pontoons;
- A capital dredge of the new berth pocket;
- Disposal of dredged material at sea if no beneficial alternative can be identified; and
- Possible impact protection measures if required.

Landside:

- Demolition and redevelopment of a number of existing commercial buildings within the site;
- Improvement of the existing cargo storage areas, including resurfacing and provision of new pavements and associated infrastructure;
- A terminal building and a small welfare building to provide appropriate facilities for terminal operational and administration staff, lorry drivers and passengers;
- A small workshop with fuel station;
- Facilities for UK Border Force;
- An internal bridge within the site to cross over Robinson Road and the ABP managed transit sidings;
- Related utilities and operational infrastructure;
- Creation of a second entrance lane at the Port's East Gate; and
- Environmental enhancement.

**6. Location or route of the Proposed Development**

\* Description of location of application site(s), or route of development (reference to appropriate plans)

The site of the proposed IERRT Development is located within the Port of Immingham Statutory Harbour Authority area and the Port of Immingham statutory port undertaking, on the southern bank of the Humber Estuary. The landside areas of the proposed development site all fall within the eastern and south eastern part of the statutory port estate, as well as at the Port's East Gate. The marine elements of the proposed development site are situated to the east of the existing Eastern Jetty and to the west of the Immingham Oil Terminal.

ABP has included an environmental enhancement scheme as part of the DCO application which will involve the improvement of an existing area of woodland, owned by ABP, south of Laporte Road named Long Wood.

A Site Location Plan is provided at Application Document 2.1.

\* Is the site a single site or a linear site?

- Single site       Linear site

**Grid reference**

\* Easting

\* Northing

\* Document reference

**7. Associated Development**

\* Associated Development is included within this application:

- Yes       No

## 22. Additional information for specific types of infrastructure

\* Additional information is required to be submitted in accordance with Regulation 6 of The Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009:

Yes  No

\* Provide a brief description

APFP Regulation 6(3) indicates that if the application is for the construction or alteration of harbour facilities, it must be accompanied by a statement setting out why the making of the order is desirable in the interests of (a) securing the improvement, maintenance or management of the harbour in an efficient and economical manner; or (b) facilitating the efficient and economic transport of goods or passengers by sea or in the interests of the recreational use of sea-going ships. This is found in the Planning Statement (incorporating Harbour Statement) (Document Reference 5.1).

\* Document reference

Planning Statement (incorporating Harbour Statement) (Document Reference 5.1)

Add another reference

Regulation 6 of the Infrastructure Planning (Applications: Prescribed Forms and Procedures) Regulations 2009 requires additional information to be submitted with the following types of development.

\* Please check any of the following boxes that apply:

- Construction or extension of a non offshore generating station (Reg. 6 (1a))
- Construction or extension of an offshore generating station (Reg. 6 (1b))
- Highway related development (Reg. 6 (2) (part 1))
- Construction or alteration of a railway (Reg. 6 (2) (part 2))
- Construction or alteration of harbour facilities (Reg. 6 (3))
- Construction of a pipeline (Reg. 6 (4))
- Construction or alteration of a hazardous waste facility (Reg. 6 (5))
- Construction of a dam or reservoir (Reg. 6 (6))

### Construction or alteration of harbour facilities (Reg. 6 (3))

\* Provide a statement setting out why the making of the order is desirable in the interests of securing the improvement, maintenance or management of the harbour in an efficient and economical manner

The proposals provide for an extension to the existing Port of Immingham to meet known and future demand. Full details are contained within the Planning Statement (incorporating Harbour Statement) (Document Reference 5.1) and Environmental Statement Chapter 4 - Need and Alternatives (Document Reference 8.2.4).

**Continued from previous page...**
