

Note:
 Zone of Theoretical Visibility has been generated using Ordnance Survey Terrain 5 digital terrain model which does not take into account the screening effects of vegetation, buildings or other structures.

The ZTV is based upon a grid of points spaced 50m apart within the required Works Areas. The development height has been assumed as below:
 - 35m above ground level for Work No. 1
 - 15m, 45m and 65m above ground level for Work Nos. 2 & 3
 - 15m, 20m and 45m above ground level for Work Nos. 5 & 7
 All heights are Above Ordnance Datum.

The development areas are taken from drawings "West Plot Perimeter Boundary Immingham NH3 Terminal Immingham" and "East Plot Perimeter Boundary Immingham NH3 Terminal Immingham" by Air Products and Chemicals Inc.
