Dear Mr Hunter

Planning Act 2008, Immingham Green Energy Terminal – Deadline 7 Submission

On 25 October 2023, the Marine Management Organisation (the “MMO”) received notice under section 55 of the Planning Act 2008 (the “PA 2008”) that the Planning Inspectorate (“PINS”) had accepted an application made by Associated British Ports (the “Applicant”) for determination of a development consent order for the construction, maintenance and operation of the proposed Immingham Green Energy Terminal (the “DCO Application”) (MMO ref: DCO/2022/00012; PINS ref: TR030008).

The DCO application seeks authorisation for the construction, operation, and maintenance of a multi-user liquid bulk terminal which would be located on the eastern side of the Port of Immingham (“the Port”), as well as associated development (collectively termed “the Project”). The associated development would comprise the construction and operation of a green hydrogen facility and landside works for the production of green hydrogen from imported green ammonia on site.

This document comprises the MMO comments in respect of the DCO Application submitted in response to Deadline 7.

The MMO submits the following:

- 1. Comments on the Examining Authority’s proposed schedule of changes to the draft Development Consent Order**
- 2. Comments on responses to the Examining Authority’s Third Written Questions (WQ3)**
- 3. Comments on any other information and submissions received at Deadline 6**

This written representation is submitted without prejudice to any future representation the MMO may make about the DCO Application throughout the examination process. This representation is also submitted without prejudice to any decision the MMO may make on any associated application for consent, permission, approval or any other type of authorisation submitted to the MMO either for the works in the marine area or for any other authorisation relevant to the proposed development.

Yours Sincerely,

Phillipa Koomson
