

LATE SCOPING CONSULTATION RESPONSES

Consultation bodies have 28 days to respond with any comments, stating either the information that they consider should be included in the ES or that they do not have any comments.

Any responses received after the deadline are not considered within the scoping opinion but are forwarded to the applicant for consideration in accordance with the policy set out in Advice Note 7: Environmental Impact Assessment, Screening and Scoping.

The following EIA scoping consultation responses were received after the consultation deadline specified under legislation and therefore did not form part of the Secretary of State's scoping opinion. In some cases responses were submitted after the deadline due to administrative error which meant the organisation did not receive the consultation letter until after the end of the statutory consultation period.

Dear Sir/Madam,

Application by Devon County Council for an Order Granting Development Consent for the Tavistock to Bere Alston railway reinstatement and associated trails

This is a joint response by National Grid Electricity Transmission plc (NGET) and National Grid Gas plc (NGG)

I refer to your letter dated 24th November 2014 regarding the above proposed application. Having reviewed the Scoping Report I would like to confirm that National Grid wishes to make no further comments.

Yours Sincerely

Vicky Stirling
