We are against The proposed West Midlands Interchange as we do not want to have our village of Brewood and surrounding area carved up and destroyed. We do not want roads that are already taking too much volume of traffic made even worse by the extra freight lorries. It is a danger for everyone in the area. A destruction of everything we have strived to keep sacred from so called progress ruining small villages and taking away the inheritance of village happiness for our children.

Eva and Tim Simcox
