Dear Sirs

I wish to object to the above development.

We do not want the green belt destroyed! It can never be reversed.

In my view there are lots of other brown sites that could be developed.

I know that other areas would welcome a project such as the hub , where there is lots of unemployment and no loss to the green land.

The endless disruption to the traffic would be a unimaginable. Just an accident on the M6 or the A5 causes a great deal of congestion and holdups everywhere.

Please consider the countryside and the continual disturbance this project would cause.

Yours sincerely

Carolyn Barton
