Subject: Fwd: Motorway closure M6northbound J12 - accident
Date: 14 April 2019 22:13:13

Dear Mr Singleton,

Following on from the accident this evening, comments on social media about this are highlighting the damage to the tarmac and cracks in walls that the continual HGV's are causing. Our elderly residents are being shook in their beds from the vibration of the lorries. This is quite serious.

Thank you.
Anita Anderson

Dear Mr Singleton,

Please forgive this email and this is for information only. But I would like to report another incident on our road network this evening.

Between 8pm and 9pm (Sunday 14th April) there has been an overturned vehicle on the M6 Northbound between J12 & J13. The motorway has been closed at J12 causing queues. Prior to its closure all traffic was coming off at J12 creating queues from the motorway island down to Gailey. Obviously the queue on the motorway was extensive.

Complete chaos.

Thanks
Anita Anderson
