Dear, Sir,

I refer to to ExQ3 3.1.1 THE APPLICANTS DO NOT INTEND PUTTING RAIL INFRASTRUCTURE IN FOR 6 YEARS after warehousing. IN GREENBELT

It cannot be gauranteed that an extension to the time limit would generate sufficient money to fund the building of the

Rail Terminal or interest from Companies who would use the site and make it a viable proposition especially in view of

the possible future economic difficulties

Bearing this in mind the RT may never be built which as been previously stated it would indicate this proposal is not

an N.S.I.P therefore I respectfully submit that the developers request be denied

yours faithfully
A Allsop
