Dear Sir

WM Interchange

In reply to your letter of 30<sup>th</sup> July, I object to the fact that applicant has asked for permission to be granted to build warehouses before the rail hub. Initially the focus was on a rail hub to take traffic away from roads but if warehouses are built, there is no likelihood of a rail hub being built in the future, especially if the decision will focus at that time on the wishes of the proprietors of the warehouses.

I object to warehouses being built solely for purpose of warehouse facilities as there are already vacant warehouses in area and development land for erection of warehouses so if hub cannot be built then decision should also be taken that warehouses should not go ahead either.

Yours faithfully

L E Hancher (Mrs)
