Dear Inspectorate

I am writing to express my objection of the building of 186,000 Sq m of useless warehousing on green belt land.

As detailed in the documentation –

ExQ3 3.1.1. THE APPLICANTS DO NOT INTEND PUTTING RAIL INFRASTRUCTURE IN FOR 6 YEARS after warehousing!

Without rail this it is an absolute abuse of planning procedures and is completely unnecessary.

We do not need 186,000 Sqm of warehousing on precious greenbelt land when there are many brownfield sites (in areas of low employment) who would be crying out for this type of investment.

It is obvious that this is a money-making plan by the landowners and by saying they need the 6 year delay to 'generate interest' in the rail hub shows that there is no interest in rail freight at all.

Please stop killing our countryside!

Yours faithfully

Rebecca Talbot

Brewood resident who wants her children to live in a country which values its countryside over and above money.
