Hi @ West Midlands Interchange Project Team,

Thanks for the up to date information on the above.

I have read it and from my understanding there is serious doubt about the Rail Interchange for this proposed site.

As this was the only excuse for building a vast storage site on Green Belt Land I hope you will not be giving Planning Approval, in line with South Staffordshire Council objections to the site.

There is already a brand new warehouse on the current Industrial site which has stood empty since being built for must be nearly a year, despite the apparent shortage due to Brexit stock piling. (Wolverhampton 450)

There is also a proposed Warehouse site on the old Royal Ordnance Site at Featherstone which has had no interest for probably the last 10 years. (Sovereign Park)

The West Midlands Interchange has always been about a greedy organization taking advantage of the Governments desire to move traffic from Road to Rail (Which I approve of) so they could desecrate the Green Belt for their own profit.

I trust you will refuse the project access to the Green Belt.

Thanks,

Martin Bave,

[REDACTED]
