Dear Sir / Madam

Ref - ExQ 3 3.3.1

I am writing to express my concerns about the delay in the proposal of the rail connection.

Why would we go ahead with the warehousing and not the rail hub if this is a national infrastructure project.

We have lots of unused warehousing already in this local area

The road network is already unable to cope, so all transport would be added to this without the rail network, making all the warehousing road dependent, so the potential local impact is worse still without the rail hub.

This is green belt land, there are other locations which should be explored without tress and wildlife to be destroyed, this project is disastrous to all these with the rail terminal, let alone without.

Zoe Martin
