

Site: [redacted]  
Address: [redacted]

Dear Sir/Madam,  
Thank you for your letter to us regarding the application for planning permission for residential use without a full planning application.

REGD 3.1.7. The applicant is not intended to carry out any alterations to the building.  
I would like to suggest that you should be satisfied with the current situation which has existed. Alternatively, having such building work including work to the roof and chimney stacks to be physically demonstrated as the only purpose for the development.  
I would like to be satisfied that the roads in this area are already maintained. See attached certificate.  
I would like to be satisfied that there are no trees covered by the tree preservation order and in a dangerous state of danger. There are trees. Photos attached.

Yours faithfully,  
Nick Dwyer
