Dear Sirs,
Ref: Letter Eversheds Sutherland

I am writing to express my opposition to the letter from Eversheds Sutherland, regarding their interpretation as to whether a Rail Freight Terminal should or must be built.

Surely, the proposal for a Strategic Rail Freight interchange can only be put forward if a rail terminal is actually built from the outset.

There should be no room for manoeuvre for the developers on this point as a rail freight interchange is implicit in obtaining planning permission for this project.

I remain totally opposed to the planning application for the West Midlands Freight Interchange.

Your faithfully,

J S Goodwin
