Subject: TR050005 - West Midland Interchange - Gailey Rail Hub
Date: 07 February 2020 15:12:27

Dear Sir

Our Reference 20015364

We are extremely concerned by the content of the Late Application(13 December 2019) by Four Ashes Limited, regarding the change of wording from "MUST" to "SHOULD".

This what appears an insignificant alteration changes the whole emphasis of the project.

It could enable the applicant to develop the site with warehousing etc., without the need to construct the Rail Hub which clearly is the main core of the justification for the project.

This request is unacceptable and should be rejected.

Regards

William Caffrey & Gaynor Caffrey
