Sent from my iPad From no 20010499

My objections to above development are as follows-----

- 1) the area of the site is one of beautiful countryside used by the local population it is a lung of green in an area to be developed with considerable housing in the foreseeable future.
- 2) the proposed need for more employment in the area is erroneous as there is already full employment .
- 3) the extensive changes to the local road system would involve considerable chaos over a very long time, with the amount of noise and various other construction activities bringing a n intolerable burden on the quality of life for everybody.
- 4) is there actually a need for such a huge enterprise when DRIFT is so close by?

Hoping you will give some consideration to the above objections.

Mair Jagger. Milton Malsor
