My registration ref: 20010519

The destruction of agricultural land which cannot be replaced! Once built over can never be used again for farming.

We are an expanding population we need food not warehousing.

There is already a RFT terminal less than 20 miles away (DIRFT) which is not working to full capacity. Is there really need for another one so close? Also our infrastructure is not capable of handling all the extra traffic that will not be involved, we have enough problems at the moment.

Pollution in the form of light, noise and air will impact majorly on our small village and the surrounding area, which is already heavily polluted.

Trevor Thompson
