Subject: Objection

Sir

I initially registered my objection to this development and would like to summarise my main areas of opposition as follows

- The impact on air quality - already poor around junction 15 and Collingtree and likely to deteriorate if the development goes ahead
- Traffic congestion – already bad , particularly Junction 15 of M1 to the Barnes Meadow interchange likely to worsen with the development. The alterations to the Junction 15 of the M1 will exacerbate and not alleviate this problem.
- The M1 is already at capacity between junctions 10 and 20 – this development would make it worse.
- Changes to the junctions on the A508 would result in more traffic using roads through housing in East Hunsbury in order to reach Blisworth and Towcester
- Is there really a case for this development? There is capacity at DIRFT at Crick only 15 miles away

Yours Faithfully

Hilary Spurrier – Your Ref TR050006
