Finally, I also enclose a document explaining minor changes to the Parameters Plan arising from the further work undertaken to satisfy Network Rail of the northern entry speeds and the need for clarity on the strategic bund heights (Document 8.15). The revised parameters plan is also enclosed as a standalone document for certification purposes. As explained in that document, this amendment to the Parameters Plan also requires a small amendment to the Works Plans and those which need to be amended are enclosed separately for certification purposes.

I would be grateful if you would confirm receipt of the enclosed documentation. Please do not hesitate to contact me or my colleague, Laura-Beth Hutton, should there be any queries.

Yours sincerely
