The Northampton Gateway Rail Freight Interchange Order 201X

SoCG UPDATE AND STATEMENT OF  
COMMONALITY | 26 FEBRUARY 2019

[www.northampton-gateway.co.uk](http://www.northampton-gateway.co.uk)

**THE NORTHAMPTON GATEWAY RAIL FREIGHT  
INTERCHANGE ORDER 201X**

**SoCG UPDATE AND STATEMENT OF COMMONALITY**

**Roxhill (Junction 15) Limited**

**26 February 2019**

**DOCUMENT 8.4B**

**This page is left deliberately blank**

## 1. Introduction

### 1.1 Purpose

1.1.1 This statement updates the position regarding Statements of Common Ground (SoCG) as at **Deadline 5** (26 February 2019).

1.1.2 This statement was also prepared, in response to a request of the Examining Authority (ExA), to explain the commonality on specific points between the SoCG agreed between Roxhill (Junction 15) Limited (the Applicant) and various bodies in relation to Northampton Gateway as at **Deadline 1**. This statement updates the position as at **Deadline 5**.

1.1.3 It is intended that this statement be updated throughout the Examination to reflect additional agreement and commonality.

### 1.2 Structure

1.2.1 The statement is structured as follows:

- Section 2 and **Appendix 1** provides an up to date list of SoCGs and sets out the status of each SoCG; and
- Section 3 and **Appendix 2** sets out the commonality between SoCGs.

## 2. Statements of Common Ground Update

2.1 The table in **Appendix 1** contains a full list of Statements of Common Ground and explains their current status. It also identifies any outstanding issues which are the subject of ongoing discussions and may therefore be the subject of further submissions in due course.

2.2 The ExA requested, in the Rule 6 Letter issued on 10 September 2018, that the Applicant submit a SoCG with the Local Enterprise Partnership (LEP) to cover employment. The Applicant has sought to obtain a SoCG with the LEP but the LEP has declined to engage in that exercise saying that “they are unhappy with the principle of signing any such statement”. The ExA have asked, in ExQ2 that the LEP reconsider its position. The Applicant has contacted the LEP again drawing the further request to their attention. At the time of writing, whilst the contact has been acknowledged, no substantive response has been received (please see the Applicant’s response to ExQ2.8.4 (**Document 8.17**)).

2.3 Continuing efforts have been made to obtain responses from the Electricity Undertaker and the Electronic Communications providers. A SoCG with one of the Electronic Communications providers has been submitted to the ExA (see

**Document 7.16**, REP2-008). The Applicant continues to seek SoCG with remaining Electronic Communications provider. The ExA will recall from the Applicant's previous submissions to the Examination that the Applicant understands that this provider (CTIL) proposes to relocate the existing mast off site, regardless of the proposed development and therefore anticipates this is the reason for the lack of progress. The Applicant has again sought an update and the response provided was still to confirm the intention to relocate off-site but with no update on the proposed timing.

- 2.4 The Applicant has agreed some amendments to the protective provisions for the benefit of the Electricity Undertaker and is finalising the SoCG to confirm this. The Applicant expects to be in a position to submit this SoCG to the ExA shortly.

### 3. Commonality

- 3.1 The table at **Appendix 2** provides a summary of the principal issues covered in the SoCGs and shows the commonality in the topics in discussion with the various parties, as at **Deadline 4**.

- 3.2 The topics identified principally relate to the topics upon which the ExA have sought SoCG in its procedural decision, contained in the Rule 8 Letter issued on 17 October 2018.

- 3.3 The table shows topics covered within the various SoCGs with reference to a colour, which demonstrates the status of agreement on that topic as follows:

	Completed – topic fully agreed with no areas of disagreement
	Completed – topic partially agreed with some identified areas of disagreement – final position
	Completed as an interim SoCG with further identified matters to be addressed through discussion

- 3.4 Where a topic is not relevant to a particular party, the entry in the table is shown blank.

**Appendix 1**  
**Update on SoCG**

<b>Doc No.</b>	<b>Party</b>	<b>Topic</b>	<b>Status</b>	<b>Date of submission</b>	<b>Outstanding issues expected to be resolved and subject of further submission</b>
7.1	Highways England	Technical Highways	Completed	18 May 2018	None – see Addendum
7.1A	Highways England	Technical Highways	Completed Addendum to 7.1	6 November 2018	None – see 7.1D
7.1B	Highways England	Smart Motorways	Completed	6 November 2018	None
7.1C	Highways England	DCO Drafting	Completed	6 November 2018	None
