Subject: Gateway Response

Dear Sir/madam,

As an [REDACTED] sufferer, I find the extent of road works for construction vehicles to now be completely encircling my home in Blisworth in an alarming manner. The noise and dust feels a very real threat plus any air pollution from heavy plant on top. In our current state of uncertainty, no strategic plans may be made so why inflict all this uproar and disturbance on us when it may not even go ahead.

I am not sufficiently fit to express my views at more length.

Yours,

Vera Vincent
