Dear Sir/Madam

I am writing to you with strong objections to the Northampton Gateway Project. Not only for the heartbreaking loss of habitat for our wildlife, but my real concerns regarding the health of villagers in Blisworth, Milton Malsor, Roade and Collingtree. When there is a problem on the M1, most of the traffic is diverted down our narrow Courteenhall Rd, passed our Primary School. This has priority over traffic coming in on our Northampton Road. Can you imagine the impact of this combined with all the extra lorries and staff cars that will be coming through our village if this project goes ahead. It will make getting into our village practically impossible. Along with the pollution of hours of standing traffic.

Is this development really necessary as the Rail Freight Project is not going in now, Or is it just greedy developers who spot a piece of land that they can develop and make big money out of without any concern to the local people they are disrupting, any loss of habitat or what they are doing to our precious environment.

Kind regards

Estelle Rose
