Northampton Gateway Rail
Freight Interchange Project.

Dear Sir/Madam

I am appaled at the whole idea of Seagro proposal.

The increase of traffic through the village will be dreadful and may have a devaslating effect of Village Houses foundations the road is very narrow and has multiple bends

The extra lorries will cause a tremendous traffic jam and danger to residents. It's already very busy and dangerous, when trying to cross road or pull out of a side road.

Canal side the road is sinking and need repeated repairs.
