Mrs Ann Christie

[REDACTED]

16th September 2022

I am writing to express my strong opinion to the development that is proposed amendment for Blisworth.

The new consent will not only be a degradation to the village, but I feel a danger to the children, as all the traffic will travel along the main road which is on the main road.

<!--[if !supportLineBreakNewLine]-->

<!--[endif]-->

We see what such effect has on the village when there are problems on the M1, all the traffic uses the main road to bypass the problem.

<!--[if !supportLineBreakNewLine]-->

<!--[endif]-->

The original application stated that a rail terminal capable of handling trains would be constructed, before any warehousing could be built.

<!--[if !supportLineBreakNewLine]-->

<!--[endif]-->

Therefore, lorries would have to travel along the main street, causing a large amount of traffic on this road with extra pollution, noise and perhaps, God forbid fatalities.

<!--[if !supportLineBreakNewLine]-->

<!--[endif]-->

I believe that the traffic survey that was done in 2019, is very much out of date, not taking all the extra traffic that will occur in the new proposal.

<!--[if !supportLineBreakNewLine]-->

<!--[endif]-->

SEGRO has put this proposal forward to maximise their own financial gain, not taking any consideration to the impact that will have on the community.

<!--[if !supportLineBreakNewLine]-->

<!--[endif]-->

I therefore object to this proposal going forward

<!--[if !supportLineBreakNewLine]-->

<!--[endif]-->

Kind regards

Mrs Ann Christie
