Subject: Northampton gateway rail freight interchange project non-material TR050006
Date: 20 September 2022 15:13:22

Im writing to protest against the buildings which going to be built between Milton Malsor and Blisworth.

When we came to Blisworth in [REDACTED] we moved to a quiet rural village. It is about to be turned into a forest of warehouses.

This will have a huge impact on all surrounding villages.

The amount of traffic, pollution infrastructure will desimate the whole area. The peace and tranquility of village life will be gone forever.

Northampton is not an area of high unemployment so people would have to be brought into the area. This will create pressure on house and schools.

It is also a breach of the original national policy statement for national networks. It never was really possible to bring a rail link into the area.

Mrs Marion Aveling
