Subject: Northampton gateway rail freight interchange project - non material change TR050006
Date: 22 August 2022 15:32:59

To whom it concerns,

We have received communication in regards to the above and would like to register our opposition at this request and appeal that the request for non material change be **Rejected**.

We believe that if this change, if approved, will prove to be material (instead of non material) and will have considerable adverse effect on heavy goods vehicle traffic levels around and through Wootton Village and Wootton Fields. The roads have schools on them and we believe the risk to school going children who walk (which is strongly encouraged) will also increase by the increased level of heavy traffic. We foresee that it will also seriously increase the noise and environmental pollution levels in and around Wootton, having a serious effect on the quality of life of the residents.

We **STRONGLY** oppose this change.

Regards,

Mr and Mrs B Sobers
