Subject: Northampton Gateway Rail Freight Interchange project – Non-Material Change TR050006
Date: 17 August 2022 14:09:28

To Whom It May Concern

I am writing in relation to TR050006 and the proposed non material change to the SEGRO DCO for the Northampton gateway site.

I am a resident of Northampto living close to the A45.

The gateway site is already an unwelcome development to many of the residents living in proximity to the A45.

I am writing to formally protest that the modification to SEGRO's DCO, which required the connection of the **rail line** to the **rail freight terminal** prior to being able to be used for road haulage, be rejected. It would make a mockery of the DCO process if it was simply able to be amended because of an obvious flaw in the arrangements between the rail provider and SEGRO.

I would greatly appreciate any feedback or information about what further action can be taken to oppose this change.

Thank you in advance

Ryan Holden
