Subject: Northampton gateway rail freight interchange project - non material change TR050006
Date: 16 August 2022 22:25:13

Dear Sirs

I would like to register my displeasure at the above request which has come to my attention and urge that the request for non material change be rejected.

I believe that if this change is approved it will prove to be material (instead of non material) and will have considerable adverse effect on heavy goods vehicle traffic levels around and through wootton.

The roads have major schools on them and I believe the risk to school-going children will also increase by the increased level of heavy traffic.

I foresee that it will also increase the noise and environmental pollution levels in and around wootton having serious effect on the quality of life of residents.

I strongly oppose this change.

Regards,

Dr Tracey Leghorn
