Subject: Strategic rail freight change of application
Date: 26 September 2022 21:56:31

Hi

I am writing to oppose the change of application to allow works to continue before the promised rail terminal is delivered. This application was overruled by central government on the basis of this being a strategic national rail freight. It is now becoming a non strategic lorry park if the planned changes are allowed. A vast swathe of countryside has been wiped out forever on the basis of what seems to be an untruth. I strongly object to this and appeal to the council to block the application change.

Kind regards

D Hudson
