SUBJECT: NORTHAMPTON GATEWAY RAIL FREIGHT INTERCHANGE PROJECT – NON-MATERIAL CHANGE TR050006

FAO: Planning Inspectorate

I am writing to express my strong objection to the proposed amendment requested by SEGRO to the original Development Consent Order (DCO) granted in October 2019 for the Northampton Gateway.

I strongly feel that the proposed amendment would have a negative impact on Blisworth and the surrounding villages, in terms of traffic, HGV use of village roads, pollution and noise. It would also have a damning effect on the local environment.

Additionally, the previous reports and data from the original proposal will now be out of date. What's more, should this proposal be approved, it opens the floodgates for other developers to adopt this same approach to get proposals through which would likely have initially been rejected.

This proposal would have a significant negative impact on Blisworth. I kindly ask you to consider the residents of Blisworth, and the residents of all the surrounding villages, when considering if this proposal go ahead.

Warm Regards,

Ellena Austin
