Andrea,

As a resident on [REDACTED] Northamptonshire I am increasingly concerned about the potential impact on our community should the change order be granted.

Like many, I moved my young family to Wootton specifically for the schools and the community. It currently feels a safe place for my children to grow and thrive.

However, the thought of the increased traffic travelling through the area is frightening especially since the A45 near this area has experienced closure due to RTAs or flooding several times this year which in turn pushes traffic through residential areas in order to find work arounds. Our roads aren't built for this.

The terms of the original planning order must be maintained in order to retain the safe community we love.

Please help protect our families.  
Kind Regards  
Pam
