Proposed non-material change to the Order

Consultation under Regulation 7 (1) of the Infrastructure Planning (Changes to, and Revocation of, Development Consent Orders) Regulations 2011 (as amended)

We are writing to you to consult you on our application for a non-material change to the Northampton Gateway Rail Freight Interchange Order 2019 (the DCO).

We are required to consult with you under the above Regulations, by sending you the enclosed notice, because you were a party required to be notified previously of the application for the DCO.

The DCO authorises the construction and operation of a rail freight interchange, warehousing, highway works and associated infrastructure on land near Junction 15 of the M1 motorway, Northamptonshire.

Details of the non-material change sought to the DCO are explained in the statement submitted with the application.

As reflected in the enclosed notice, consultation on the proposed Non Material Change runs between 11 August – 26 September 2022. During this period a copy of the application will be available to view on the Planning Inspectorate's website and our own project website, details of which are contained in the enclosed Regulation 6 Notice.

The Regulation 6 Notice also provides details of how, and where, to submit any representations you might wish to make in respect of the application. You will see that representations should be submitted directly to the Planning Inspectorate. Any representations should be submitted by no later than 11:59 on **26 September 2022**.

Should you have any queries in relation to the application please contact us directly by emailing [contact-](#) or calling
