Northampton Gateway Rail Freight Interchange Project - Non-Materiel Change TR050006

I'm Winnie Bateman and [REDACTED]

I'm writing to say I strongly object to the planning that is being sort to build warehousing along the Northampton Road in Blisworth

I moved to Blisworth 34 years ago when the Blisworth Bypass was being built to stop the traffic coming through the village, this worked well for a time, but unfortunately Blisworth is being used as a rat run again.

Blisworth can't stand anymore heavy traffic using our narrow roads

There is a very busy junction by the school, which is already chaotic when the children are going to and from school, with the potential for tragic accidents to happen.
Also the junction by the Royal Oak, High Street, Stoke Road, and Chapel Lane, are already horrendous to cross.

We cannot afford to have any more heavy lorries passing through the village which is what will happen if the above planning gets the go ahead.

BLISWORTH IS A VILLAGE LET'S KEEP IT THAT WAY

You're faithfully
Winnie Bateman
