

As a resident of Burbage for [REDACTED]

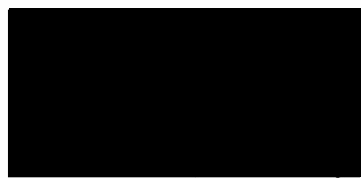

I am appalled at the proposed HNRFI development

There is zero necessity to the proposed site

because of:

- 1) Total Lack of industry near to the proposed site
- 2) The devastating impact to the wild life on Burbage common, together with the proposed removal to local people of a beautiful outdoor natural facility.
- 3) Already low unemployment in the area, so donot try to influence us with Job oppertunitys.
- 4) The heavy and noisy traffic on Sapcote road is yet again unneeded and unwanted on a already busy road

Go build your rail freight site somewhere else P.P.
