

I would like to request that the ExA undertakes a site visit through Burbage Common and Woods along the route of the existing bridleway indicated as U51/2,3 & 4 as shown on APP - 017 (the visit does not need to be accompanied). This will enable the ExA to walk from the visitor centre at Burbage Common and Woods through to Smithy Lane. The purpose of the site visit being to:

- observe the importance of the Common and Woods as a recreation facility
- observe the importance of the Common and Woods as a local wildlife site
- observe the importance of the Aston Firs SSSI
- observe the common land proposed to be compulsorily acquired in order to connect the new bridleway
