

Submission ID: 22282

Aggregate Industries UK Limited seek to register our interest in the Hinckley National Rail Freight Interchange as a user of the Rail Network associated with Aggregate and Waste rail movements across the East Midlands and South East. We seek to protect our current capacity on the network (4 trains a day / 7 days a week / 24h operation) Croft Quarry has permission to export 6.3mt of hard rock material and import 14M m3 of inert waste. We seek to be proactively involved in this process at every stage
