Dear Ms Davies

**Late Submission - HNRFI SOCG between the Applicant and National Highways**

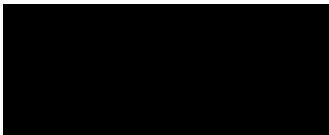

Please find enclosed late submissions for the HNRFI examination, to supplement the Applicant's submissions at deadline 2, made on 24 October 2023.

Our deadline 2 submissions stated that we had not received a SOCG from National Highways and therefore we were not in a position to submit a document at deadline 2. It has come to our attention, that a SOCG was received on 24 October from National Highways, however, given that this was later than the deadline provided to the relevant parties for inclusion into our deadline 2 submission, we were not in a position to incorporate it within the timescales for the deadline.

Given that National Highways is such a key stakeholder for the project, we believe that it would be beneficial to share the latest position with the ExA in advance of the hearings scheduled w/c 30<sup>th</sup> October. Therefore we are submitting the SOCG as a late submission, with the document reference 19.7. We will update the statement of commonality and document index to reflect this latest position at later deadlines. It should be noted that at this stage National Highways did not want to commit to a RAG rating.

It is also noted that Appendix B to the Blaby DC SoCG should actually be appended to the Leicestershire CC SoCG as Appendix A. This appendix was submitted for Deadline 2 but unfortunately by reason of administrative error attached to the incorrect pdf.

Yours sincerely

Erin Banks
