

Having seen a recent additional submission by Tritax (Compulsory Acquisition Schedule Document Reference 4.4 Revision 01) which was only published on the 24th October for deadline 2, I see that it contains some errors regarding details of myself and property.

Specifically in the table at the end of the submission it indicates that I have not raised a relevant representation, nor a written representation, nor an objection whereas I have done all three.

I note that the same situation is true for other residents of Wortley Cottages. Yet again, inaccurate data being presented by Tritax.

Tritax have never notified me as an individual that I have been placed on this list and am potentially being affected by a Compulsory Acquisition TP order. I have only become aware of this while perusing the latest documents added.
