To Whom It May Concern

Re: Hinckley National Rail Freight Terminal

It has been brought to my attention about a consultation due to close today (Thursday 10 December 2020) regarding the Scoping Opinion consultation from PINS in view of a National Rail Freight Terminal for Hinckley.

I regret that I was not made aware that such a consultation was taking place until late in this process; may I enquire as to the reason behind this? I was surprised to note this consultation deadline for such a major project which, although situated in a neighbouring constituency, will impact Bosworth especially in the Hinckley and Burbage areas.

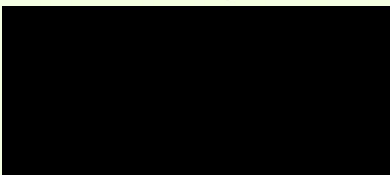

I suspect that my local Borough Council will provide a more technical examination for the consultation which I can not provide as I do not have the technical specialisms or expertise.

However, given the impact this development is likely to have on my constituents, I would welcome the opportunity to take part in discussions and further consultations, as well as being kept abreast of developments given the significance.

To that end, I would be grateful for a more substantive communication into 2021 about these proposals so I can be appraised of developments, make informed judgements and liaise with constituents accordingly.

I would appreciate being kept informed of the Inspectorate's comments and look forward to follow up meetings in due course.

Yours sincerely

Dr Luke Evans
