TRANSBOUNDARY SCREENING

Document(s) used for transboundary screening:	Proposals for the Approach to and Scope of an Environmental Impact Assessment and Environmental Statement to Accompany the Proposed Development Consent Order Application for the Alteration and Construction of Hazardous Waste and Low Level Radioactive Waste Facilities at the East Northants Resource Management Facility, Stamford Road, Northamptonshire. Environmental Impact Assessment Scoping Report ('the Scoping Report')

The Inspectorate on behalf of the SoS has considered the Proposed Development which comprises the construction of a western extension to the existing East Northants Resource Management Facility at Stamford Road, Kings Cliffe, Northamptonshire, together with alterations to the existing operational facility, for the treatment, recovery and disposal of hazardous waste and low level radioactive waste.

The Inspectorate concludes that the Proposed Development **is unlikely to have a significant effect either alone or cumulatively on the environment in another European Economic Area State**. In reaching this conclusion the Inspectorate has identified and considered the Proposed Development's likely impacts including consideration of potential pathways and the extent, magnitude, probability, duration, frequency and reversibility of the impacts.

The Inspectorate considers that the likelihood of transboundary effects resulting from the Proposed Development is so low that it does not warrant the issue of a detailed transboundary screening. However, this position will remain under review and will have regard to any new or materially different information coming to light which may alter that decision.

Action: No further action required at this stage.

Date: 11 August 2020

Note: The SoS' duty under Regulation 32 of the 2017 EIA Regulations continues throughout the application process.
