PUBLIC NOTICES

NOTIFICATION OF HEARING UNDER RULE 15(6) OF THE INFRASTRUCTURE PLANNING (EXAMINATION PROCEDURE) RULES 2010
SECTION 91 OF THE PLANNING ACT 2008
RULE 15(6) OF THE INFRASTRUCTURE PLANNING (EXAMINATION PROCEDURE) RULES 2010
NOTICE OF HEARING RELATING TO THE ENRMF WESTERN EXTENSION
PLANNING INSPECTORATE REFERENCE WSD10005

Notice is hereby given that, at the date, time and location set out below, an issue specific hearing will be held by the Examining Authority for the examination of the application made by Augsan South Ltd for a Development Consent Order ("the DCO") for the ENRMF Western Extension ("the Application").

The Application was made to the Secretary of State for the Department of Levelling Up, Housing and Communities via the Planning Inspectorate under sections 30 and 37 of the Planning Act 2008 on 8 September 2021 and was accepted by the Planning Inspectorate for examination on 24 September 2021. The Application has been given the Planning Inspectorate reference number WSD10005.

SUMMARY OF THE SCHEME

The Application seeks consent for the alteration of existing and the construction of new facilities for the recovery and disposal of hazardous wastes and the disposal of low level radioactive waste at the East Northants Resource Management Facility (ENRMF) Stamford Road, Northamptonshire, PE8 6XX ("The Scheme").

The main aspects of the Scheme comprise:

- The construction of new landfill void in the Proposed Western Extension for the continued disposal of the same range of predominantly hazardous wastes and a limited amount of low level radioactive waste (LLW) as deposited at the existing landfill site ("Existing Landfill Facility") with a capacity of greater than 100,000 tonnes per annum (tpa) of hazardous waste which satisfies section 30(1) and section 30(2)(a) of the Act.
- A proposal for a coherent landform for the restoration of the Existing Landfill Facility and the Proposed Western Extension resulting in the construction of new landfill void in the Existing Landfill Facility to connect with the Proposed Western Extension with a capacity of greater than 100,000 tonnes per annum (tpa) of hazardous waste which satisfies section 30(1) and section 30(2)(a) of the Act.
- A total additional landfill void to be constructed of approximately 2.5 million cubic metres.
- The winning and working of minerals in the Scheme in order to create the landfill void and provide extracted materials for use on site as well as the exportation of clay and overburden for use in engineering, restoration and general fill at other sites.
- The temporary stockpiling of clay overburden and soils for use in the construction of the engineered containment system at the site and restoration of the site.
- The direct input of waste into the Existing Landfill Facility and the Proposed Western Extension will continue at a rate of up to 150,000 tpa.
- An increase to the hazardous waste throughput of the Existing Waste Treatment and Recovery Facility from 200,000tpa to 250,000tpa which comprises an increase of 50,000tpa compared with the rate consented in the Original Order and the extension of the treatment area to the south while remaining within the Existing ENRMF footprint which satisfies section 30(3) and section 30(4)(b) of the Act.
- A combined total waste importation rate limit to site for the Scheme of 300,000tpa which is an increase of 50,000tpa compared with the rate consented in the Original Order.
- The LLW which will continue to be disposed of at the Existing Landfill Facility and will be disposed of in the Proposed Western Extension will be limited to that which is at the lower end of the activity range and typically will have a level of radioactivity of up to 200 Bq/g.
- The diversion of the overhead electricity cable that crosses the Proposed Western Extension to a trench which follows the route of the water pipes across the Proposed Western Extension and then follows the western margin of the site to the northern corner.
- The operational hours of the site will not change from those already consented in the Original Order.
- Restoration of the whole site to generally domed profiles to create a coherent restoration landform.
- Restoration of the site to improve biodiversity and nature conservation interest using the soils available at the site as well as suitable imported materials. The site will be restored to a mosaic structure of woodland with shrubby edges, flower meadow grassland, scattered trees, hedgerows and waterbodies.
- Completion of the landfilling and restoration operations by December 2046 and removal of the Existing Waste Treatment and Recovery Facility.
- Retention of infrastructure until 2046 and the retention of long term management infrastructure beyond this date.

HEARING

The programme for the Examination of the Application that was published in the Rule 8 letter on 9 February 2022 included **Wednesday 8 June 2022** for additional hearings. The Examining Authority has now confirmed the date, time and place of a hearing as detailed below.

Date	Hearing type	Time	Place
Wednesday 8 June 2022	Issue Specific Hearing 3 (ISH): Infrastructure matters	Arrangements conference starts: 9.30 am Hearing starts: 10.00 am	Virtuality via Microsoft Teams Full instructions on how to join online or by telephone will be provided in advance to those who have pre-registered

If you wish to speak at the hearing, please could you notify the Planning Inspectorate Case Team using the contact details below (preferably by email) by **Tuesday 31 May 2022**.

Please include the following information:

- Your name and interested Party (IP) reference number in your correspondence;
- Brief details of the topics that you would like to raise;
- The Examination Library reference number (with paragraph/page number where appropriate) of any documents you wish to refer to.

Those parties who do not wish to speak at the hearing will be able to view the hearing on the Livestream. A link to the Livestream will be made available on the project page on the National Infrastructure Planning website shortly before the events are scheduled to begin. A recording of the hearing will also be published on the website as soon as practicable after the events take place.

Joining instructions will be issued via email in advance of each hearing to parties who notified the Planning Inspectorate of their wish to speak at the hearing.

For more information on this hearing, the examination of the Application and full timetable (and any amendments to it), please contact the Planning Inspectorate using the details below (under "Further Information"), or visit its website where procedural decisions and notices of hearings are available to download.

COPIES OF THE APPLICATION

Copies of the Application documents including the draft Development Consent Order and the Environmental Statement can be viewed and downloaded online at the Planning Inspectorate website project page:
<https://infrastructure.planninginspectorate.gov.uk/projects/east-midlands/east-northants-resource-management-facility-western-extension/>
A paper copy of the documents may be inspected free of charge by appointment only at the following location during the hours set out below:

- ENRMF, Stamford Road, Northamptonshire, PE8 6XX

Please telephone 01904 654989 to make an appointment to visit during normal working hours.

Digital copies of the documents may be inspected free of charge at the following location:

- Quintus Public Library, Glogthorn Road, Oundle PE8 4JA

Opening hours: Monday, Wednesday, Friday 10am - 4pm and Saturday 10am - 2pm

You are advised to contact the location before visiting to check that it is open as this venue is governed by an independent organisation and opening hours may be subject to change.

FURTHER INFORMATION

Further information about the Application, the hearing, how to take part in the Examination and any other matters covered in this notice may be obtained from the Planning Inspectorate or Augsan South Ltd using the following contact details:
