Dear Sir/ Madam

## Planning Act 2008 and The Infrastructure Planning (Examination Procedure) Rules 2010 – Rule 9

### Application by Augean South Limited for an Order Granting Development Consent for the East Northants Resource Management Facility Western Extension

#### Applicant's request for a change to the original application

In my letter of 23 June 2022 [\[PD-014\]](#) I offered the provisional view that the proposed change to the application [\[AS-007 to AS-028\]](#) submitted by the Applicant was non-material. I have now had the opportunity to consider the matter further and to have regard to results of the applicant's consultation exercise (Consultation Report [\[REP7-010\]](#)). These considerations have not altered my initial view and I therefore confirm my decision that the proposed change is non-material and has been accepted into the Examination.

The reasons for reaching this decision are:

- The proposed change does not involve additional land and does not require the use of compulsory acquisition powers;
- The proportion of the site affected is relatively small and the change would be limited in scale and nature;
- The proposed change would not give rise to new or different likely significant environmental effects;
- The proposed amendments to the dDCO would be limited in extent; and
- There have been no other substantive changes to the original application.

While writing, I take the opportunity to remind you that any comments on the Applicant's Consultation Report should be submitted by **Deadline 8 on Friday 29 July 2022.**

Please contact the Case Team if you have any questions about this letter.

Yours faithfully

*Simon Warder*  
**Examining Authority**
