# 1 Acton Storm Tanks

## 1.1 General

- 1.1.1 All works covered within this document are to be managed and performed to the culture within the Thames Tideway Tunnel vision of 'Zero Incidents, Zero Harm, Zero Compromise'.
- 1.1.2 The *Code of Construction Practice (CoCP)* comprises two parts:
  - a. Part A: General requirements. These measures are applicable project-wide.
  - b. Part B: Site-specific requirements. These are site-specific measures, where there are deviations from the general requirements indicated in Part A.
- 1.1.3 This document comprises the *CoCP* Part B for the Thames Tideway Tunnel project works at Acton Storm Tanks site and identifies the detailed site-specific measures including working hours, site set up and servicing arrangements, taking into account the environmental issues and consultations with the London Borough (LB) of Ealing and other stakeholders.
- 1.1.4 For ease of reference the *CoCP* Part B mirrors the headings in Part A. The *CoCP* Part B sets out site-specific issues and deviations from Part A so where there are no site-specific measures reference should be made to the measures set out in Part A.
- 1.1.5 A plan showing the location of the site is shown in Figure 1.1 below.

Figure 1.1 Site context and location plan

Note: For detailed Limits of Land to be Acquired or Used, refer to drawings in the Book of Plans.

## 2 General requirements

2.0.1 As per text in CoCP Part A.

## 3 Communications and community/stakeholder liaison

3.0.1 As per text in CoCP Part A.

4 Site operation	
Topic	Site-specific requirement
Working hours	<p>This site <b>willshall</b> adhere to the following working hours:</p> <ol style="list-style-type: none"> <li>standard</li> <li>continuous for main tunnel secondary lining phase.</li> </ol> <p>When other types of working hours (CoCP Part A, Table 4.1) are required, these <b>willshall</b> be subject to agreement with the local authority through the Section 61 process.</p>
Site layout	As per text in CoCP Part A
Site security / hoarding requirements	<p>Hoarding height on the boundary of the site with 1-5 Canham Road and with Greenend Road <b>willshall</b> be increased from 2.4m to 3.6m.</p> <p>The hoarding is to be as defined in CoCP Part A para. 4.3.4a incorporating suitable art work on public facing sections.</p>
<a href="#">River works</a>	<a href="#">As per text in CoCP Part A.</a>
Other items	When mains power is not used, the contractor <b>willshall</b> document why this is the case in advance to LB of Ealing.

5 Public access, highway and river transport	
Topic	Site-specific requirement
Site access and gates	<p>The site access <b>willshall</b> be from The Vale via Warple Way and Canham Road with only a left turn into the site and left turn out. Vehicles <b>willshall</b> egress to The Vale via Canham Road and Stanley Gardens.</p> <p>The site entrance <b>willshall</b> be designed to prevent any vehicles over swinging the footpath.</p> <p>Safe access for construction vehicles <b>willshall</b> be maintained during winter conditions, along Warple Way, Canham Road and Stanley Gardens.</p> <p>The security barrier <b>willshall</b> be positioned to allow a standard rigid tipper vehicle to be wholly off the road whilst awaiting barrier operation.</p>
Traffic management	Five sections of on street parking on Canham

Topic	Site-specific requirement
	<p>Road, Warple Way and Stanley Gardens <b>willshall</b> be suspended with no re-provision.</p> <p>Access to a third party vehicle parking area to be reduced to one lane at entrance for short period during construction. Access for general traffic <b>willshall</b> be maintained throughout, unless agreed otherwise with the local authority.</p> <p>Some temporary parking suspension <b>willshall</b> be required in a third party vehicle parking area during construction.</p> <p>The contractor <b>willshall</b> manage entry and egress of vehicles across the entrance and potential conflicts with pedestrians crossing, by use of measures such as traffic marshals. This is particularly for pedestrians going to/from the existing nursery.</p> <p><a href="#"><u>The site specific Traffic Management Plan will comply with the London Borough of Ealing's requirements for signage, tactile paving and road markings that are provided where diversions are in place.</u></a></p>
Event restrictions	N/A
River transport	N/A
Other	As per text in CoCP Part A.

## 6 Noise and vibration

Topic	Site-specific requirement
Control measures	<p>See hoarding requirements above.</p> <p>The construction area around the shaft <b>willshall</b> be covered by an enclosure/building during the main tunnel secondary lining works. The building <b>willshall</b> have cladding with a specified sound reduction value. The building openings <b>willshall</b> be designed to be away from sensitive noise receptors and <b>willshall</b> be kept closed when not in use at night. Only essential use of openings at night.</p> <p>Movements of vehicles on the site outside standard hours to be restricted.</p> <p>Enclose with suitable structure and acoustic attenuation material the concrete batching plant.</p> <p>Compaction of the fill material in the storm tanks <b>willshall</b> be undertaken using machinery generating</p>

	the lowest practicable vibration levels which still enables the required level of compaction to be completed. Specifically, the use of large twin-drum vibrating rollers <b>willshall</b> only be used in locations where vibration levels can be controlled to less than the impact criteria.
Other	As per text in <i>CoCP</i> Part A.

7 Air quality	
Topic	Site-specific requirement
Vehicle and plant emissions	As per text in <i>CoCP</i> Part A.
Dust emissions/control	Reference should be made to Part A para. 7.5.1 in agreeing locations and data provisions to LB of Hounslow and LB of Ealing.  Monitoring should incorporate locations to cover receptors on Greenend Road. Baseline monitoring for PM <sub>10</sub> and NO <sub>2</sub> <b>willshall</b> be undertaken for a minimum of 12 months <u>prior to the work commencing</u> . Note that the nearest AURN monitor is currently at North Kensington. The monitoring layout <b>willshall</b> include a continuous monitor located at each end of a transect of the site, with regards to the prevailing wind direction. An additional monitor <b>willshall</b> be located at the boundary of the site with 2-10 Greenend Road.
Odour	As per text in <i>CoCP</i> Part A.
Other	As per text in <i>CoCP</i> Part A.

8 Water resources	
Topic	Site-specific requirement
Control of pollution: surface water / groundwater	As per text in <i>CoCP</i> Part A.
Control on abstraction	As per text in <i>CoCP</i> Part A.
Ground treatment / <del>dredging</del>	As per text in <i>CoCP</i> Part A.
Other	As per text in <i>CoCP</i> Part A.

<b>9 Land quality</b>	
<b>Topic</b>	<b>Site-specific requirement</b>
Site works	As per text in <i>CoCP</i> Part A.
Site-specific issues / mitigation	As per text in <i>CoCP</i> Part A.

10 Waste management and resource use	
Topic	Site-specific requirement
Excavated material	Where possible excavated material arising from works on site <del>will</del> shall be utilised to fill the northern tanks.
Resource usage	As per text in <i>CoCP</i> Part A.
Other	As per text in <i>CoCP</i> Part A.

11 Ecology (aquatic and terrestrial)	
Topic	Site-specific requirement
Protection of habitats	Bird and bat boxes <del>will</del> shall be installed.
Protection of trees	Replanting of moderate quality (prominent) existing trees with high quality trees upon completion. See below for details of advance planting.
Other	As per text in <i>CoCP</i> Part A.

12 Historic environment	
Topic	Site-specific requirement
Other	As per text in <i>CoCP</i> Part A.

13 Other	
Topic	Site-specific requirement
Visual	Advanced planting to provide tree line screen down eastern boundary and south eastern corner of CSO site hoarding.
