Thames Tideway Tunnel
Ref: NPCU/RARECT/s131/132/72270

Dear Sirs,

The Open Spaces Society has only recently become aware of proposed development affecting open spaces arising from construction of the Thames Tideway Tunnel, in particular with regard to King George's Park in Wandsworth.

Subject to further investigation of the impacts of this development the Society wishes to table formally an objection to the proposal.

The Society will be submitting any such detailed objections shortly and intends to attend the public examination hearing on January 17 dealing with open spaces.

Jeremy Clyne
Open Spaces Society (Wandsworth Correspondent)
