FAO Mark Wilson (Principal Case Manager)

23 December 2013

Dear Sirs

PLANNING ACT 2008 THAMES WATER UTILITIES LIMITED APPLICATION FOR DEVELOPMENT CONSENT FOR THE THAMES TIDEWAY TUNNEL

1 Purpose of this letter

1.1.1 We enclose written confirmation of our cases put orally at hearings held on and between 28 November and 20 December 2013. We also enclose an update on status of Statutory Undertakers and Communication Code operators land and apparatus and errata for the *Book of Reference* for Statutory Undertakers and Communication Code operators.

2 Written summaries of oral cases made at the Compulsory Acquisition Hearings

2.1.1 For each Compulsory Acquisition Hearing, we enclose a document containing a written summary of our oral case (APP42), along with a combined response addressing the limits of deviation for the tunnels (as detailed at Schedule 1). We have given this combined response reference APP43. These documents also address various questions raised by the Examining Authority at the Compulsory Acquisition Hearings and include the information we undertook to supply by 23 December 2013.

2.1.2 At the Compulsory Acquisition Hearings, we agreed to make changes to our proposals in response to matters raised. Some of these changes affect our drawings and therefore we will submit revised drawings on the 13 January 2014. We will also make corrections to drawings in the *Book of Plans*, where errors have come to our attention and update the drawings to show the tall buildings that influence the alignment of the tunnels.

3 Statutory Undertakers and Communication Code operators

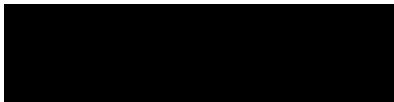

3.1.1 Following the various submissions in response to first written questions on statutory undertakers' land and apparatus, including schedules and other comments, we have received new information relating to the identification of land and apparatus belonging to statutory undertakers and apparatus belonging to communication code operators. All

the qualifying bodies involved have previously been identified in the *Book of Reference*; the new information identifies interests in existing identified plots. We therefore provide a table of errata to the *Book of Reference* (Doc ref: 4.3). This is document APP44.2. These errata will be included in the updated *Book of Reference* submitted for 13 January 2014 deadline. The opportunity has been taken to compile a comprehensive table of all these entries, which includes information on protection being offered to the statutory undertakers and communication code providers, together with notes on the current state of negotiation with each.

4 Enclosed documents

- 4.1.1 As agreed, we enclose seven hard copies of the documentation and eight DVDs containing the submitted material.
- 4.1.2 I hope you find this information of assistance in the examination of our application. If any queries arise from the above, please do not hesitate to contact me or Ian Fletcher on 020 8792 5568 or ian.fletcher@thameswater.co.uk.

Yours faithfully

Phil Stride
Head of Thames Tideway Tunnel

Schedule 1: Documents submitted for 23 December 2013 deadline

PINS Doc ref	Document title
APP42.1	Written summaries of Compulsory Acquisition Hearings: Written summaries of the cases put orally at the hearings held on 28 November 2013
