

- Key**
- - - Limits of Land to be Acquired or Used
 - Local Authority Boundary
- Representative Receptor Locations:**
- Residential
 - Non-residential
 - - - Extent Of Construction Noise Mapping

- Typical Construction Noise Levels**
- < 45 dBL_{Aeq,T}
 - 45 - 50 dBL_{Aeq,T}
 - 50 - 55 dBL_{Aeq,T}
 - 55 - 60 dBL_{Aeq,T}
 - 60 - 65 dBL_{Aeq,T}
 - > 65 dBL_{Aeq,T}

Note:
The receptors are selected on the basis that they are representative of sensitive land uses closest to the site.

Scale 1 : 3,000 at A3

DRAFT FOR DISCUSSION

Location
Chambers Wharf

Document Information
Noise and Vibration – Typical Night Time Construction Noise (ie most frequently occurring monthly noise levels) 1st floor level
