The relocation of the existing works, from its current site, will unlock the last large brown field site in Greater Cambridge and allow the creation of a new city district and provide much needed housing and commercial space in a sustainable location, with access to transport, jobs and recreational opportunities.

<b>Under Discussion</b>	indicates where these issues or points will be the subject of on-going discussion whenever possible to resolve or refine the extent of disagreement between the parties and is recorded in <b>Amber</b> and marked “ <b>medium</b> ”
<b>Not Agreed</b>	indicates a final position and is recorded in <b>Red</b> and marked <b>high</b>

- Section 5 includes the signatures of all parties to confirm their agreement that this SoCG is an accurate record of issues and discussions as at the date of this SoCG.

### **1.3 Status of the SoCG**

- 1.1.3 This version, Version 2 of the SoCG represents the position between the Applicant and UKPN as of 13 November 2023 (covering the pre-application and pre-examination stage of the process). The SoCG will continue to be reviewed and progressed through Examination as well as any actions arising from the Issue Specific Hearings on the draft DCO.
- 1.1.4 A Principle Area of Disagreement (PAD) on specific points between SoCG's will be updated and submitted to the Examining Panel during the examination to reflect where additional agreement is required.
