Dear Rebecca,

Thank you for your email. Natural England will not be attending ISH3, but if the Examining Authority have specific questions we will be happy to provide a written response.

Our brief comments on matters relevant to the ISH3 agenda are as follows:

Landscape, Ecological and Recreational Management Plan (LERMP)

Relevant to items 5. Ecology, & 8. Landscape and visual/design

As covered in 7.14.8 SoCG [\[REP3-046\]](#) Natural England would like to see a more strategic landscape scale approach, but otherwise supports the habitat creation and enhancement measures set out in the LERMP, and welcomes the commitment to maintain BNG habitats for a minimum of 30 years.

Regarding recreational impacts on Stow-cum-Quy SSSI, as stated under 'Visitor Pressure' in the SoCG, the Applicant has agreed to convene a meeting to progress this matter in January (currently being arranged).

Reedbed habitat

Relevant to item 5. Ecology - Biodiversity Net Gain (BNG)

Natural England has noted the points and explanations in the Applicant's Responses 8.2 and 8.12 [REP1-078], [REP2-037] regarding reedbed habitat and welcome the amendments made to the BNG assessment report [REP2-020].

Habitats Regulations Assessment (HRA)

Relevant to item 5. Ecology – Impacts on protected species

As in the SoCG, Natural England is satisfied that the project will not adversely affect the integrity of Eversden and Wimpole Woods SAC, after reviewing the revised HRA Screening Report [REP2-022] and Habitats Regulations Assessment Report [REP2-024].

Outline Water Quality Monitoring Plan (oWQMP)

Relevant to item 6. Water resources

Natural England is currently reviewing the oWQMP and will work with the Applicant to resolve any queries.

Kind regards,
Catherine
